16.1 Intent

Within the districts established by this regulation or amendments thereto, there exist lots, structures, uses of land and structures, and characteristics of use which were lawful before this regulation was adopted or amended, but which would be prohibited, regulated or restricted under terms of this regulation or future amendments. It is the intent of this regulation that non-conformities shall not be enlarged upon, expanded or extended, nor used as grounds for adding other structures or uses prohibited elsewhere in the same district.

Non-Conforming uses are declared by this regulation to be incompatible with permitted uses in the district involved. However, to avoid undue hardship, nothing in this regulation shall be deemed to require a change in the plans, construction or designated use of any building on which actual construction was lawfully begun prior to the effective date of adoption or amendment to this regulation and which actual building construction has been carried diligently. Actual construction is hereby defined to include the placing of construction materials in permanent position and fastened in a permanent manner. Where excavation or demolition of removal of an existing building has been substantially begun preparatory to rebuilding, such excavation or demolition or removal shall be deemed to be actual construction, provided that work shall be carried on diligently.

16.2 Non-Conforming Lots of Record

In any district, notwithstanding other limitations imposed by this regulation, structures permitted in said district may be erected on any single lot of record on the effective date of this regulation. Such lot must be in separate ownership and not of continuous frontage with other lots of the same ownership. A lot of record that does not meet lot area or lot width requirements must still meet other requirements of the district.

If two or more lots or combinations of lots and portions of lots with continuous frontage in single ownership are of record at the time of adoption or amendment of this regulation, and if all or part of the lots do not meet the requirements established for lot width and area, the lands involved shall be considered to be an undivided parcel for the purposes of this ordinance. Where lots are larger than required by this ordinance, said lots may be subdivided into smaller lots except no parcel may be divided so as to create a lot smaller in lot width or lot area than required by this regulation.

16.3 Non-Conforming Uses of Land

Where at the time of passage of this regulation lawful use of land exists which would not be permitted by this regulation, the use may be continued so long as it remains otherwise lawful, provided:

1. No such non-conforming use shall be enlarged or increased, nor extended to occupy a greater area of land than was occupied at the effective date of adoption or amendment of this regulation.
2. No such non-conforming uses shall be moved in whole or in part to any portion of the lot or parcel other than that occupied by such use at the effective date of adoption or amendment of this regulation.
3. If any such non-conforming use of land ceases for any reason for a period of more than ninety (90) days, subsequent use of such land shall conform to the regulation specified for the district in which such land is located.
4. No additional non-conforming structure in connection with the requirements of this regulation shall be erected in connection with such non-conforming uses of land.

16.4 Non-Conforming Structures

Where a lawful structure exists at the effective date of adoption or amendment of this ordinance that could not be built under the terms of this ordinance by reason of restriction on lot area, lot coverage, height, yards, its location on the lot, or other requirements concerning the structure, such structure may be continued so long as it remains otherwise lawful, subject to the following provisions:

1. No such non-conforming structure may be altered or enlarged in any way which increases its non-conformity, but any structure or portion thereof may be altered to decrease its non-conformity.
2. Should such non-conforming structure or non-conforming portion of a structure be destroyed by any means to the extent of more than 50 percent of its replacement cost at the time of destruction, it shall not be reconstructed except in conformity with the provisions of this ordinance.
3. Should such structure be moved for any reason for any distance whatever, it shall thereafter conform to the regulations for the district in which it is located after it is moved.

16.5 Non-Conforming Uses of Structures

If lawful use of a structure or of structures and premises exists at the effective date of adoption or amendment of this regulation that would not be allowed in the district under the terms of this regulation, the lawful use may be continued so long as it remains otherwise lawful providing that:

1. No existing structure devoted to a non-conforming use shall be enlarged, extended, constructed, or structurally altered, unless the use is changed to a permitted use.
2. Any non-conforming use may be extended to any other part of a building designed for such use, but no such use may be extended in any way to occupy land outside the building.
3. Non-conforming use of building, structures, or premises may be changed to another non-conforming use, provided that a conditional use permit is obtained from the Zoning Commission determining whether or not to grant the conditional use permit the Zoning Commission shall determine that the proposed use is equally appropriate or more appropriate to the district than the existing non-conforming use. In permitting such use, the Zoning Commission may require appropriate conditions or safeguards.
4. Any structure, or structure and land, in or on which a non-conforming use is superseded by a permitted use shall thereafter conform to the regulations of the district in which it is located and the non-conforming use may not thereafter be resumed.
5. Whenever a non-conforming use of a structure or a premises ceases for ninety (90) days, the structure or premises shall not thereafter be used except in conformance with the regulations of the district in which it is located. The term “ceases” as used in this subsection shall mean that the activity in question has not been in operation for a period of ninety (90) days.
6. Where non-conforming use status applies to both structure and land, the removal or destruction of the structure shall eliminate the non-conforming status of the land.

16.6 Repairs and Maintenance

On any non-conforming structure or portion of the structure containing a non-conforming use, work may be done on ordinary repairs and fixtures, wiring, plumbing, or repair or replacement of non-bearing walls, to an extent not exceeding 10 percent of the replacement value of the building in any one year, provided that such work does not increase the cubic content of the building. Nothing in this regulation shall be deemed to prevent the strengthening or restoring to a safe condition of any building or part thereof declared to be unsafe by any official charged with protecting the public safety, upon order of such official.

16.7 Conditional Uses

Conditional uses provided for under Section 13 of this regulation shall not be deemed a non-conforming use in the district in which it is permitted.

3. That the variance will have minimal adverse effect on abutting properties or the permitted uses thereof.
4. That the lawful conditions stated in the approval are deemed necessary to protect the public health, safety, and general welfare.
